Vacuum Filter Apparatus, Whatman Schleicher & Schuell

① **Type MV 050/0**

Stainless steel; chemically resistant against virtually all water-based and organic solutions.

- Funnel volume; 50 ml
- For 47/50 mm filters and 40 mm prefilters
- Self-sealing, without clips, ideal for fast sequences of filtering

Article	Order No.
MV 050/0 vacuum filter apparatus	**54 02 40000**
MV 050A/0 vacuum filter apparatus	**54 02 40020**

② **Type GV 025**

Glass; also resistant to acids and bases

- Funnel volume: 60 ml

Article	Order No.
GV 025/1 vacuum filter apparatus	**54 02 41100**
GV 025/2 vacuum filter apparatus	**54 02 41200**

③ **Type GV 050**

Glass; also resistant to acids and bases

- Funnel volume: 250 ml
- For Ø 47/50 mm filters and Ø 40 mm prefilters
- With a tightly sealing silicone cap and ventilation supports
- GV 050A types come with quick-lock clips

Article	Order No.
GV 050/0 vacuum filter apparatus	**54 02 42000**
GV 050/1 vacuum filter apparatus	**54 02 42100**
GV 050/2 vacuum filter system	**54 02 42200**

④ **Type GV 100**

Glass; also resistant to acids and bases

- Funnel volume: 500 ml
- For Ø 100 mm filters and Ø 80 mm prefilters
- Dimensions: Height 255 mm; Ø 90 mm without clip and hose coupling

Article	Order No.
GV 100/0 vacuum filter apparatus	**54 02 43000**
