

macro Pipette Controllers, BRAND

① Macro pipette controllers

One single macro pipette controller covers the entire range of bulb and graduated pipettes from 0.1 to 200 ml. The conical silicone adapter offers a secure fit for the different diameters.

The unique valve system allows for easy compression of the newly designed bellows. The spring loaded lever enables an even more sensitive filling and delivery of liquids. The meniscus is easily adjustable.

The unit is fully autoclavable at 121°C (2 bar) according to DIN EN 285. A hydrophobic membrane filter protects the system from liquid penetration.

Scope of delivery: each pipette controller is supplied with a 3 µm spare membrane filter

Colour	Order No.
Gray	27 49 26100
Green	27 49 26151
Blue	27 49 26152
Magenta	27 49 26154

② Accessories

Article	Order No.
Spare membrane filter 3 µm (PP, PTFE), 1 piece, non-sterile	27 49 26052
Spare membrane filter 3 µm (PP, PTFE), 10 pieces, non-sterile	27 49 26056
Silicone adapter, length 44 mm	27 49 26146
Adapter support (PP), gray, length 49 mm	10 49 26220
Suction bellow (silicone) with screw ring (PP)	10 49 26225
Valve system (PP, PTFE, silicone)	27 49 26128

❗ Available only in original packaging units. No fractions possible.
