

## Pipette Controllers **accu-jet® pro**, BRAND

All with one hand: Select the delivery mode (gravity delivery/blow-out) and adjust the pipetting speed using the sensitive pipetting buttons - a great benefit when using small-volume pipettes. Ergonomic handgrip, weight only 190 g, perfectly balanced design - for fatigue-free pipetting even in prolonged operations. the **accu-jet®pro** is supplied with two battery compartment covers. The second cover enables you to place the instrument inverted on the bench, to avoid contamination of the pipette adapter.

- Ergonomic design
- Infinitely variable control of the maximum pipetting speed
- Rugged, powerful pump for fast filling (50 ml in 10 seconds)
- A flashing recharging indicator LED alerts you that the battery is running low. You can work for another two hours before its empty
- 8 hours continuous pipetting with a 10 ml pipette without recharging
- Corrosion protection through active pressure compensation
- A hydrophobic membrane filter and a built-in check valve protect against liquid penetrating inside
- Two modes: gravity delivery or motor-powered blow-out
- For glass and plastic pipettes from 0.1 – 200 ml

### **accu-jet® pro** pipette controllers

Complete with wall support, 2 spare membrane filters (0.2 µl), sterile, nickel-metal hydride battery pack, 2 battery compartment covers, operating manual, AC adapter (100-240 V; 50-60 Hz)
